

## Level 3 Reviewing

Level 3 is the highest Level of the ACRE Standards.

Rural Community Action Network members are eligible for a Level 3 Review one year after a successful Peer Review at Level 2. Thereafter, Level 3 Reviews will be undertaken on a three-yearly basis.

Level 3 Reviews check whether the requirements of Level 1 and Level 2 continue to be effectively implemented, and whether further review and improvements have been made to the way that the organisation operates.

An important feature of Level 3 Reviews is the external stakeholder interview. Funders, partners and users are interviewed by the ACRE Level 3 Reviewer, which gives a further perspective to the Level 3 Review.
